LDEQ declares that “an emergency exists” and that “measures are necessary to prevent serious threats to life or safety.” The order extends certain regulatory deadlines, among other measures.³

Although some restrictions have been lifted, the Governor has made clear that immediate reinstatement may occur at any time: “[S]hould there be an increase in the number of confirmed COVID-19 cases or should the number of COVID-19 related hospitalizations threaten the ability of the health care system to properly respond, it may be necessary to go back to the full restrictions in the [original] Stay at Home order.”⁴

7. Provide a detailed construction schedule, reflective of the anticipated schedule as of March 1, 2020, (broken out by month), that specifies the work being performed, the number of contractors expected to be on site (noting the name of the company), the anticipated date of arrival of major parts, and any other relevant information.
